

PRODUCT INFORMATION SHEET

Glow plug tester

Product description

The tester enables easy and quick diagnostic of installed glow plugs without the need to disassemble the plug from the engine or to start the engine. It enables checking glow plugs in motorcycles, cars and vans, caravans, quads, motor boats or tractors. High precision and work safety. Mainly used in professional workshops and automotive services.

Charakteristics

- for glow plugs with 12 V electrical installation;
- measurement in diesel engines;
- automatic voltage detection;
- 1.3 m cables with clamps;
- precise readout of measurement results by means of LED;
- resistant to external factors, such as operating fluids.
